|                  |                   |
|------------------|-------------------|
| Property type    | Ground-floor flat |
| Total floor area | 68 square metres  |

## Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions](#).

## Energy rating and score

This property's energy rating is E. It has the potential to be C.

[See how to improve this property's energy efficiency](#).

| Score | Energy rating | Current     | Potential   |
|-------|---------------|-------------|-------------|
| 92+   | <b>A</b>      |             |             |
| 81-91 | <b>B</b>      |             |             |
| 69-80 | <b>C</b>      |             | <b>74 C</b> |
| 55-68 | <b>D</b>      |             |             |
| 39-54 | <b>E</b>      | <b>51 E</b> |             |
| 21-38 | <b>F</b>      |             |             |
| 1-20  | <b>G</b>      |             |             |

The graph shows this property's current and potential energy rating.

**Properties get a rating from A (best) to G (worst) and a score.** The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature              | Description                                    | Rating    |
|----------------------|------------------------------------------------|-----------|
| Wall                 | Solid brick, as built, no insulation (assumed) | Poor      |
| Roof                 | Pitched, no insulation (assumed)               | Very poor |
| Window               | Single glazed                                  | Very poor |
| Main heating         | Boiler and radiators, mains gas                | Good      |
| Main heating control | Programmer, no room thermostat                 | Very poor |
| Hot water            | From main system                               | Good      |
| Lighting             | Low energy lighting in 46% of fixed outlets    | Good      |
| Floor                | Suspended, no insulation (assumed)             | N/A       |
| Secondary heating    | None                                           | N/A       |

### Primary energy use

The primary energy use for this property per year is 413 kilowatt hours per square metre (kWh/m<sup>2</sup>).

[About primary energy use](#)

## How this affects your energy bills

An average household would need to spend **£1,046 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £505 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2018** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### Heating this property

Estimated energy needed in this property is:

- 16,233 kWh per year for heating
- 1,865 kWh per year for hot water

## Impact on the environment

This property's environmental impact rating is E. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year.

### Carbon emissions

|                                      |                               |
|--------------------------------------|-------------------------------|
| An average household produces        | 6 tonnes of CO <sub>2</sub>   |
| This property produces               | 4.9 tonnes of CO <sub>2</sub> |
| This property's potential production | 2.3 tonnes of CO <sub>2</sub> |

You could improve this property's CO<sub>2</sub> emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

## Changes you could make

[Do I need to follow these steps in order?](#)

### Step 1: Internal or external wall insulation

|                                          |                  |
|------------------------------------------|------------------|
| Typical installation cost                | £4,000 - £14,000 |
| Typical yearly saving                    | £265             |
| Potential rating after completing step 1 | <b>63 D</b>      |

### Step 2: Floor insulation (suspended floor)

|                                                 |               |
|-------------------------------------------------|---------------|
| Typical installation cost                       | £800 - £1,200 |
| Typical yearly saving                           | £76           |
| Potential rating after completing steps 1 and 2 | <b>66 D</b>   |

### Step 3: Draught proofing

|                                                |             |
|------------------------------------------------|-------------|
| Typical installation cost                      | £80 - £120  |
| Typical yearly saving                          | £17         |
| Potential rating after completing steps 1 to 3 | <b>67 D</b> |

### Step 4: Low energy lighting

|                                                |             |
|------------------------------------------------|-------------|
| Typical installation cost                      | £35         |
| Typical yearly saving                          | £23         |
| Potential rating after completing steps 1 to 4 | <b>68 D</b> |

### Step 5: Heating controls (room thermostat and TRVs)

|                                                |             |
|------------------------------------------------|-------------|
| Typical installation cost                      | £350 - £450 |
| Typical yearly saving                          | £76         |
| Potential rating after completing steps 1 to 5 | <b>72 C</b> |

### Step 6: Double glazed windows

|                                                |                 |
|------------------------------------------------|-----------------|
| Typical installation cost                      | £3,300 - £6,500 |
| Typical yearly saving                          | £48             |
| Potential rating after completing steps 1 to 6 | <b>74 C</b>     |

### Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme](#). This will help you buy a more efficient, low carbon heating system for this property.

## Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

|                 |                                                              |
|-----------------|--------------------------------------------------------------|
| Assessor's name | David Perkin                                                 |
| Telephone       | 0113 826 7993                                                |
| Email           | <a href="mailto:info@allodium.co.uk">info@allodium.co.uk</a> |

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

|                      |                                                                        |
|----------------------|------------------------------------------------------------------------|
| Accreditation scheme | Stroma Certification Ltd                                               |
| Assessor's ID        | STRO008418                                                             |
| Telephone            | 0330 124 9660                                                          |
| Email                | <a href="mailto:certification@stroma.com">certification@stroma.com</a> |

### About this assessment

|                        |                       |
|------------------------|-----------------------|
| Assessor's declaration | No related party      |
| Date of assessment     | 21 March 2018         |
| Date of certificate    | 21 March 2018         |
| Type of assessment     | <a href="#">RdSAP</a> |

## Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at [dluhc.digital-services@levellingup.gov.uk](mailto:dluhc.digital-services@levellingup.gov.uk) or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).

There are no related certificates for this property.
